

## JL-MOC

Model 362R386

High strength steel materials are the hallmark of modern constructions. Stronger metals call for more powerful cutters in rescue operations where every second counts. The Hurst® JL-MOC Parrot Blade Cutter gives rescuers up to 156,236 lbs. of cutting force in an ergonomic and lightweight design. At just 45 lbs, the JL-MOC is built to withstand the rigors of modern rescues.

### FEATURES & BENEFITS

- With up to 156,236 lbs. of cutting force, the JL MOC cuts up to 1 -1/2" round bar stock with power to spare
- Designed with unprecedented cutting forces to address the challenges of modern auto technology
- Parrot blade geometry grips material firmly for fast, clean and smooth scissor-cutting action.
- Hose exit directs the hydraulic hose out of the tool handle and away from the work area.
- Premium quality, heat-treated, forged alloy steel blades for optimum strength and endurance.

### APPLICATIONS

- Vehicle rescue applications
- Urban search and rescue operations
- Structural collapse
- Industrial rescue applications
- Large-scale transportation rescue situations such as train wrecks, aircraft emergencies and large truck/tractor incidents
