

ML-16S II - Maverick

Model 362R381

Model 362R381

If multifunction is a key factor in your purchasing decision, look no further than Hurst's combination spreader/cutter. Featuring two tools in a single integrated design, this unit easily alternates between spreading and cutting actions. Performance and power have made the Hurst® Maverick the leading combination tool in the market.

FEATURES & BENEFITS

- Two tools in one - this unit features both spreading and cutting capability in a single integrated tool design.
- Interchangeable tip system accepts a variety of combination tip configurations.
- Premium quality components include a heat-treated, alloy steel piston & piston rod; machined aluminum alloy cylinder body; investment-cast, heat-treated steel tips; and heat-treated tool steel arms/blades.

APPLICATIONS

- Urban search and rescue operations
- 1st Responder and RIT
- Vehicle rescue applications
- Industrial rescue applications
- Structural collapse
- Large-scale rescue situations including train wrecks, aircraft emergencies and large truck/tractor accidents
