

**NEW** PRODUCT!

# HHS2100 Hand Held Siren/Light Controller

REMOTE, HANDS-FREE

*Now you can easily control all light and siren functions from this compact hand held controller with built-in microphone. Moisture-resistant controller features twelve rubberized, backlit push buttons including progressive three-position push button lighting control. The unit is microprocessor controlled and rated for one or two 100-watt speakers.*

*Compact control is ideal for multiple applications including undercover vehicles and vehicles with limited interior space.*
