

Fire Flex Tank (LP)

Low Profile Fireflex Tank

Description

Fully self-supporting, open top tank designed for structural fire fighting in rural areas. Low profile (LP) to allow easy filling by any tanker dumping system.

Features

- > Frameless; no parts to assemble and can easily be set up by one person
- > Lowest weight/highest strength
- > Durable and rugged fabric which is mold and mildew resistant
- > Solid floatation collar rises automatically; no inflation required
- > Compact for easy storage
- > Highly visible contrast of tank colours (orange tank/white collar)
- > Multi-point tie down system
- > Extra large top opening
- > Low maintenance; easy to clean and repair
- > Easy discharge through standard 3" NPT outlets
- > Lifting strap for tank cleaning and drying
- > Deployable on slopes up to 7% incline
- > No glued seams
- > No inflation required

Advantages

The Fireflex Tank (LP) is lighter and safer than traditional framed tanks, as operators can avoid pinched fingers and back strain. The Fireflex Tank (LP) can easily be deployed and filled in minutes by one person. This assures more aggressive initial attack to speed suppression efforts.

Other Applications

- > Long term water storage
- > Potable water source (with optional potable water fabric)
- > Emergency reservoir

Note: This style of tank is not foam compatible. For use with chemicals please use the SEI Hazmat Tank.

Options

- > Drainage Outlets - 1" to 6" NPT

Accessories

- > Ground pads
- > Transport bags
- > Ball valves/special fittings
- > Repair kits
- > Hose Caddy
