

The NUPOLE™ System

Description

The NUPOLE quick disconnect line of tools lets you:

- > Break the tool down into smaller components for ease of storage and portability.
- > Save space and cost by carrying more than one tool head to do specific jobs, but only one handle.
- > Add an extension to provide longer reach.

The heart of this new concept in compact storing and highly portable tools is an extremely tough, rigid, yet easy to use connection. The Nupole™ connection is capable of carrying loads almost as great as one-piece NUPLAGLAS shaft.

PART No.	DESCRIPTION	LENGTH
GRIPS		
NU36-620	Butt Grip	914 mm
NU36-622	Aluminium 'D' Grip	914 mm
EXTENSIONS		
NU36-603	M & F Adaptor fitted to Nupla pole	914 mm
NU36-604	M & F Adaptor fitted to Nupla pole	1210 mm
NU36-606	M & F Adaptor fitted to Nupla pole	1820 mm
NU36-608	M & F Adaptor fitted to Nupla pole	2430 mm
NU36-610	M & F Adaptor fitted to Nupla pole	3040 mm
NU36-612	M & F Adaptor fitted to Nupla pole	3650 mm
NU36-614	M & F Adaptor fitted to Nupla pole	4260 mm
NU39-616	M & F Adaptor fitted to Nupla pole	4870 mm
HEADS		
NU36-625	Pike head	914 mm
NU36-633	Ceiling / Wall head	914 mm
STOWAGE CLIPS		
NU36-632	Clip Block (set of 2)	

pull apart diagram

NUPLAGLAS handles

Flame Resistance:

NUPLAGLAS is flame resistant to 426°C, resists continuous heat to 121°C and improves in strength down to -15°C.

Strength:

NUPLAGLAS HANDLES are stronger than wood handles

Safety:

- > Safe from electrical shock - NUPLAGLAS is an excellent dielectric material.
- > Smooth, resin rich surface protects user from splinters and resists UV deterioration.

Durability:

Does not absorb moisture, resists industrial chemicals, fire retardant

- > Easily cleaned of concrete, tar, etc.
- > Unaffected by sub zero temperatures.

Comfort:

Does not conduct heat / cold, easy to handle in extreme temperatures.

- > Ergonomically designed grips for comfort and stress reduction.
- > More rigid than wood and most other fibreglass handles, reducing wasted effort.
