

PRY AXE

Pry Axe

THE WORLD'S MOST POPULAR
EMERGENCY SERVICE TOOL FOR FORCIBLE
ENTRY AND ESCAPE

GIVE 'EM THE AXE

Here is a tool that has withstood the test of time. For over 35 years the Pry Axe has remained the best selling tool in our line. The Pry Axe is used by fire departments, police departments, and rescue squads worldwide.

The Pry Axe is a lightweight, multi-purpose, slam and ram tool designed to pry, enlarge openings, cut sheet metal and twist off locks and latches. This efficient tool lets every firefighter force entry, rescue and ventilate without waiting for help. The Pry Axe is small enough to carry and rugged enough for most jobs.

The Pry Axe head and claw are separate sections forged from high alloy steel and heat-treated for maximum strength. A solid steel shaft is press fitted and pinned to the claw. A tubular steel handle is press fitted and welded to the head. A rubber sleeve over the handle provides a non-slip grip. The tool weighs 6.6 lbs (3 kg), and is 18" (45 cm) closed, and 28" & 70 cm extended. The Pry Axe is chrome plated for good looks and easy maintenance.
