

Hale Floating Fire Fighting Pump

Dependable performance

The pump is close coupled to a U.S Motor Power 6kW engine that features solid state ignition for easy starting. The unique pressure governing system is backed up by an electrically operated overspeed control for dual engine protection.

The Hale floating pump is able to handle fires in the most remote locations, all it needs is 100mm of water to go to work.

Instant Priming

An exclusive auto prime system quickly removes entrapped air to assure a fast, positive, complete prime without the use of suction hose.

High strength durable float

The unsinkable float is foam-filled, high strength polyethylene that can take a beating. The float has dual carrying handles and a splash suppression collar for engine protection in rough water.

Lightweight

The Hale floating pump will easily store vertically in most truck compartments.

Pump

- Type:** Centrifugal pump bolted directly to engine
- Suction:** 50mm with easily removable oversize screen.
- Discharge:** 38mm, BSP
- Body:** Lightweight, high strength, corrosion resistant aluminium alloy with smooth water ways for maximum performance.
- Impeller:** Bronze enclosed type for maximum efficiency. bronze impeller clearance, maximum performance and sure alignment at high RPMs.
- Clearance Ring:** Patented bronze floating clearance ring for maximum performance and sure alignment at high RPM's

Shaft Seal: Self-adjusting, self-lubricating utilizes special ceramic seat for wear and shock resistance.

Shaft: Engine's vertical crankshaft serves as pump shaft. Engine shaft is covered by brass sleeve for better sealing and corrosion resistance.

Engine

Make: U.S Motor Power Inc.

Type: Single cylinder, two cycle petrol (mixture). Output 6kW @ 7000rpm.

Cooling: Forced air

Starting: Water resistant solid state ignition, pull start

Air Filter: Wire mesh element

Fuel Filter: 75micron in-line fuel filter, fuel strainer built into fuel pump

Dimensions

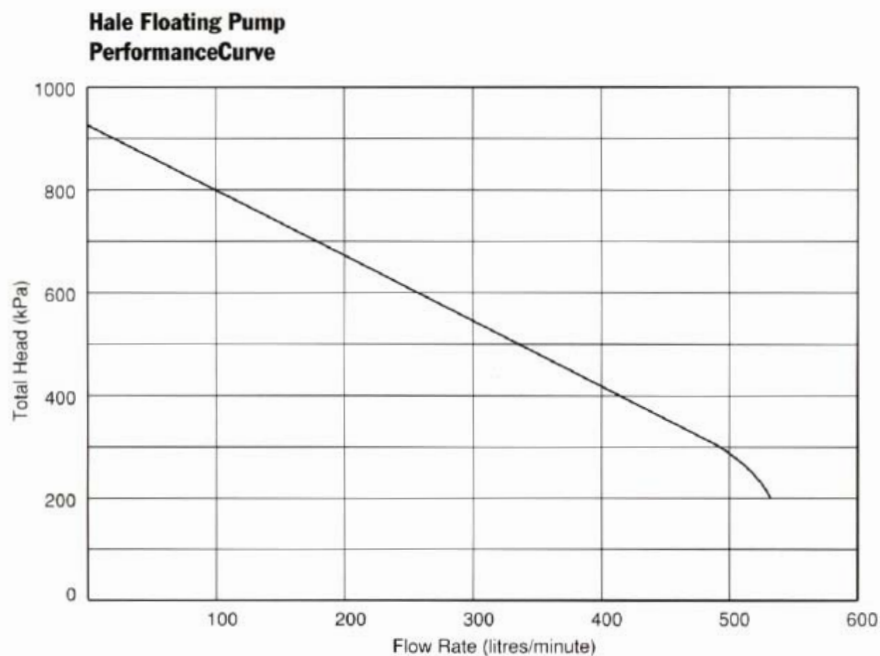

Length: 718mm

Width: 508mm

Height: 406mm

Mass: 22.2kg

When ordering, please specific thread required.
