

Salvage Kit

Portable Modular System

PORTABLE MODULAR System

FEATURES

- > Handles & Poles can be custom made to length
- > Start with one tool and add attachments later.
- > Breaks down to one easy to handle bundle.
- > Optional lightweight Canvas Carry Bag
- > Can be made to fit inside standard locker compartments

NUPLAGLAS handles

The NUPOLE quick disconnect line of tools lets you:

- > Break the tool down into smaller components for ease of storage and portability.
- > Save space and cost by carrying more than one tool head to do specific jobs, but only one handle.
- > Add an extension to provide longer reach.

The heart of this new concept in compact storing and highly portable tools is an extremely tough, rigid, yet easy to use connection. The Nupole™ connection is capable of carrying loads almost as great as one-piece NUPLAGLAS shaft.

FEATURES

Flame Resistance:

- > NUPLAGLAS is flame resistant to 426°C, resists continuous heat to 121°C and improves in strength down to -15°C.

Strength:

- > NUPLAGLAS HANDLES are stronger than wood handles

Safety:

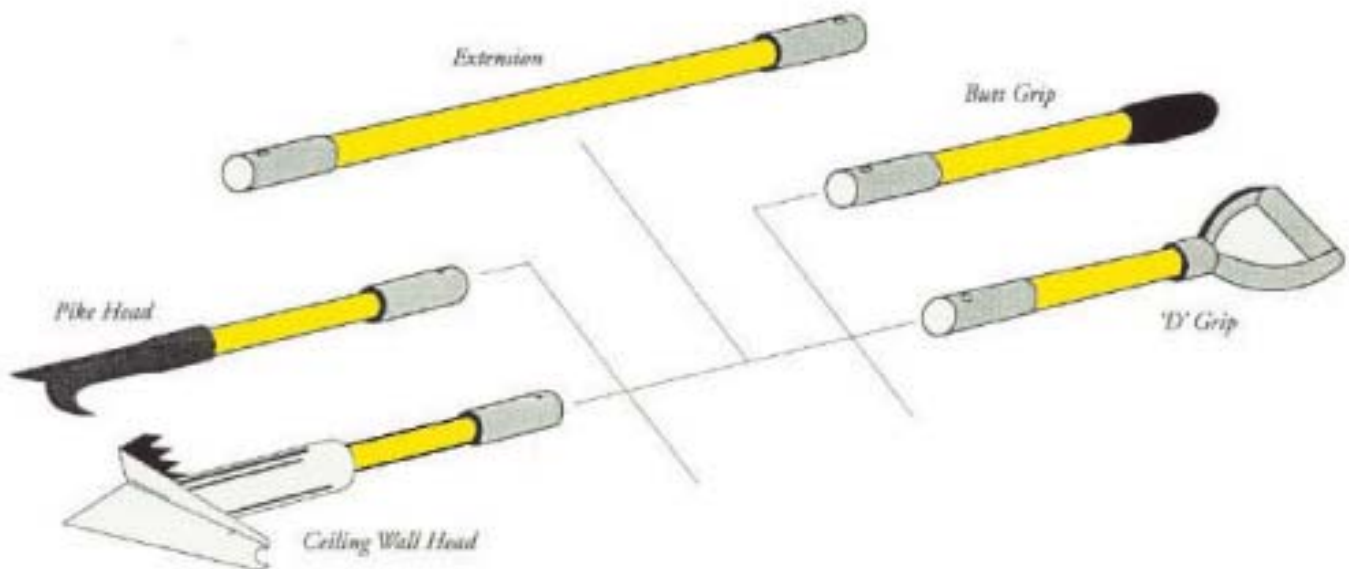

- > Safe from electrical shock - NUPLAGLAS is an excellent dielectric material.
- > Smooth, resin rich surface protects user from splinters and resists UV deterioration.

Durability:

- > Does not absorb moisture, resists industrial chemicals, fire retardant
- > Easily cleaned of concrete, tar, etc.
- > Unaffected by sub zero temperatures.

Comfort:

- > Does not conduct heat / cold, easy to handle in extreme temperatures.
- > Ergonomically designed grips for comfort and stress reduction.
- > More rigid than wood and most other fibreglass handles, reducing wasted effort.
