Fixed Gallonage

Metro 1 and Metro 2
Fixed Gallonage Nozzles
Web Key: FM

If you are looking for the simplicity of a fixed gallonage nozzle combined with the flexibility of multiple flow and pressure choices, then look no further than the Task Force Tips Metro 1 and Metro 2 series – compact and rugged nozzles that can be customized to fit many applications.

- *Designed for 1-1/2", 1-3/4", 2", or 2-1/2" attack lines*
- *Unique, interchangeable disc system provides multiple flow and pressure choices up to 250 gpm/50 psi*
- *Available in tip-only configurations for break-and-extend operations, with built-in shutoff, or with the optional color-coded pistol grip*
- *Exclusive full-filled "power fog" pattern*
- *Low- and multi-expansion foam attachments available*
- *NFPA #1964 standard compliant*
- *Exclusive "gasket grabber" to prevent pattern-disrupting debris*

Metro 2

Selectable Gallonage

The QuadraFog and ThunderFog Nozzles
Web Key: FTH

The QuadraFog selectable gallonage nozzles are an excellent choice for any 1" or 1-1/2" hose line, and ThunderFogs are ideal for any 1-1/2", 1-3/4", 2", or 2-1/2" hose line.

- **QuadraFog 1" versions offer 5-10-24-40 gpm gallonage selections at 100 psi operational pressure**
- **QuadraFog 1-1/2" versions offer 30-60-95-125 gpm gallonage selections at 100 psi or 75 psi operational pressures**
- **ThunderFog 200 series offers 30, 60, 95, 125, 150, and 200 gpm gallonage selections at 75 or 100 psi operational pressures**
- **ThunderFog 250 series offers 95, 125, 150, 200, 250 gpm gallonage selections at 100 psi**

Common Features

- **Available with a choice of either fixed or stainless steel spinning fog teeth**
- **Available in tip-only configuration for break-and-extend operations or with stainless ball shutoff and optional color-coded pistol grip**
- **Incorporate the exclusive TFT stainless steel ball shutoff and "quick change" rear valve seat**
- **Accept both low- and multi-expansion foam attachments**

1" QuadraFog

1-1/2" QuadraFog

Automatic Single Pressure

Mid-Matic Nozzles

Web Key: HM

The Mid-Matic series of automatic and low-pressure nozzles are ideal for 1-1/2", 1-3/4", and 2" hose lines.

- **Two pressure options for the Mid-Matic: 100 psi operational pressure (70 to 200 gpm) and 75 psi operational pressure (70 to 200 gpm)**

Handline Nozzles

The Handline series of automatic, low-pressure nozzles are ideal for 1-3/4", 2", 2-1/2" and 3" hose lines.

- **Two pressure options for the Handline: 100 psi operational pressure (95 to 300 gpm) and 75 psi operational pressure (95 to 250 gpm)**

Mid-Matic Series

Handline Series

or contact your local authorized
TFT distributor.

**All Task Force Tips
automatic nozzles offer
these exclusive features:**

- **Unique slide valve for turbulence-free flow control**
- **Pressure-assisted flush without shutting down**
- **Tip-only configurations for break-and-extend operations**
- **NFPA #1964 standard compliant**
- **Unique full-filled “power fog” pattern design**
- **Exclusive “gasket grabber” for debris protection**
- **Quick straight stream to fog for ultimate firefighter protection**
- **Reflective labeling for outstanding visibility**
- **Optional low- or multi-expansion foam attachments**
- **Available with color-coded polymer shutoff handle covers and pistol grips**

Automatic Dual Pressure

Mid-Force Nozzles Web Key: HMD

The Mid-Force series of dual-pressure, automatic nozzles are ideal for 1-1/2", 1-3/4", and 2" hose lines.

- **100/55 psi operational pressure (70 to 200 gpm)**
- **75/45 psi operational pressure (70 to 200 gpm)**

Dual-Force Nozzles Web Key: HD

The Dual-Force series of dual-pressure, automatic nozzles are ideal for 1-3/4", 2", 2-1/2" and 3" hose lines.

- **100/55 psi operational pressure (95 to 300 gpm)**
- **75/45 psi operational pressure (95 to 225 gpm)**

Mid-Force Series

Dual-Force Series

Ultimatic Series

Ultimatic Series of Automatic and Low-pressure Automatic Nozzles Web Key: U

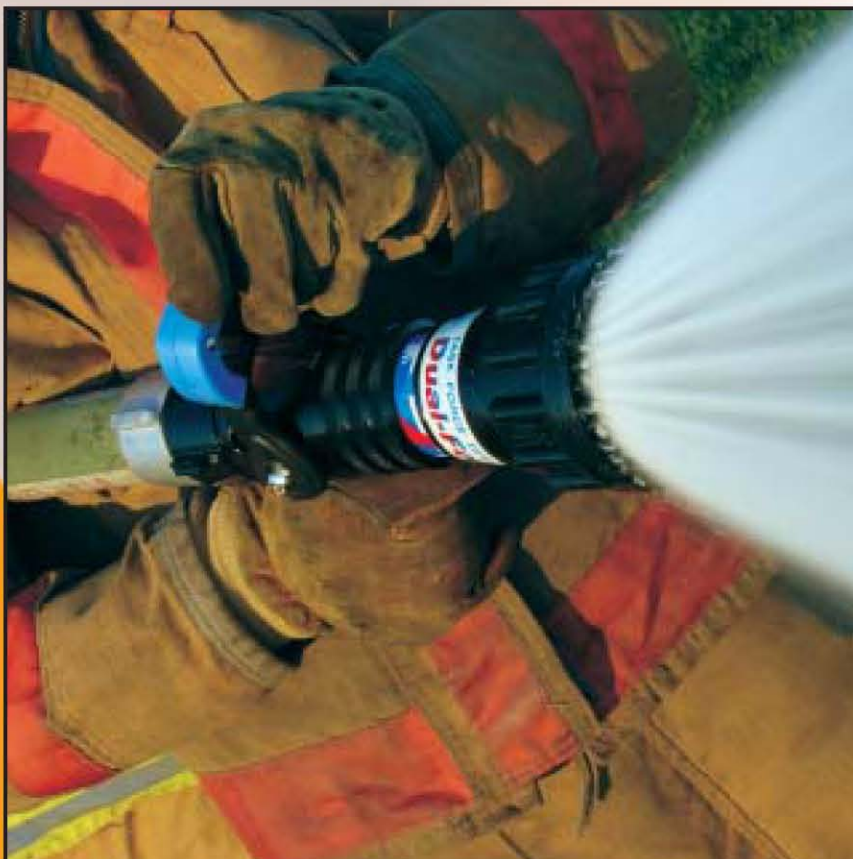

The Ultimatic series of automatic and low-pressure automatic nozzles are ideal for 1" and 1-1/2" hose lines.

- **Pressure-assisted flush without shutting down**
- **Two pressure options for the Ultimatic series: 100 psi operational pressure (10 to 125 gpm) and 75 psi operational pressure (10 to 125 gpm)**

The Max-Force Series Web Key: MFD

The Max-Force series of automatic, low-pressure, and dual-pressure automatic nozzles are designed to provide maximum flow at multiple operational pressures.

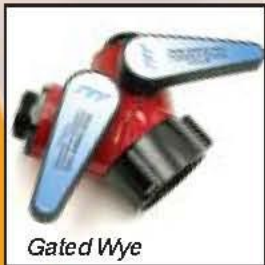

- **Two pressure options for the Max-Matic 1-1/2" and 2-1/2" series: 100 psi operational pressure (100 to 500 gpm) and 80 psi operational pressure (100 to 500 gpm)**
- **Two pressure options for the Max-Force Dual Pressure Automatic series in 1-1/2" and 2-1/2": 100/55 psi operational pressure (100 to 500 gpm) and 75/45 psi operational pressure (100 to 500 gpm)**
- **Pressure for the Max-Flow Fixed Gallonage series in 1-1/2" and 2-1/2": 500 gpm at 100 psi operational pressure**

Gated Wye

VIT Series

Piercing Nozzle

Piercing Tip

Chimney snuffer

Smoothbore System

Web Key: SB

Task Force Tips 1-1/2" and 2-1/2" Valve Integral Tips (VITs) are designed to be the most rugged valve/smoothbore combination on today's market. The VIT series provides maximum flow and smoothbore stream quality and versatility when combined with a high-flowing combination nozzle. The VIT system includes four field-changeable smoothbore inserts.

- Designed for 1-1/2", 1-3/4", 2", and 2-1/2" attack lines
- Package includes 7/8", 15/16", 1", and 1-1/8" tips
- Ideal for CAFS applications
- 2-1/2" models available with or without pistol grip, as well as a playpipe combination
- Additional smoothbore nozzles available include:
 - Tapered smoothbore 1/2", 5/8", 3/4", 7/8", 15/16", 1", 1-1/8", 1-1/2"
 - NY stacked tips 1/2", 15/16"
 - NFPA stacked tips 1", 1-1/8", 1-1/2"

Piercing Nozzle

Web Key: SP

- 1-1/2" hardened tool steel point
- 95 gpm at 100 psi operational pressure
- 51.5" long

Chimney Snuffer

Web Key: CS

- Designed to quickly extinguish stubborn chimney fires with a fine water spray to minimize or eliminate water damage
- Durable five-pound head is easily handled by a single firefighter and breaks through creosote buildup in the chimney
- Complete system includes snuffer head, 25' of 1" hose, garden hose adapter, 1" ball shutoff, Res-Q-Rench, and water-resistant carrying bag

Gated Wye

Web Key: AJ

- This high-flowing 2-1/2" x (2) 1-1/2" gated wye can be used as a leader line
- Incorporates rugged stainless steel ball shutoffs, super tough nylon shutoff handles with positive detents, and a durable powder-coat finish
